- Winter crop harvest is complete in Queensland. Some light rain falls of approximately 30mm around Emerald, Dalby and the inner Downs – a little less on the western Downs. All rain in this region welcome for summer crop.
- A slight impact on harvest activity last week from rain in areas of southern NSW. Busiest areas are around Cunningar, Junee, Milvale and Cootamundra, where growers are well into wheat. Some significant storm activity over the weekend was well managed on-site, with bunkers covered and secured in a timely manner.
- Harvesting accelerated in South East Victoria over the weekend, with plenty of activity around Yarrawonga and Elmore, as growers sought to beat rain forecast for this week. Grain from northern Victoria is still being delivered from the Nhill and Carwarp regions.
