

GrainCorp

GRAINCORP TO SUPPORT LA TROBE MALTING BARLEY VARIETY

GrainCorp is pleased to confirm it will support La Trobe barley segregations from the 2015-16 growing season, following the variety receiving Malting 1 classification from Barley Australia.

GrainCorp has been working to develop markets for the La Trobe variety and has received a positive response from a broad range of customers.

In the coming seasons, La Trobe will receive increasing storage space in the GrainCorp network in the medium to low rainfall areas of Victoria and southern New South Wales. GrainCorp will continue to support segregation for Westminster in the higher rainfall areas of southern Victoria.

Barley growers are advised to speak with their:

- local GrainCorp Site Manager on storage segregations;
- GrainCorp Grain Merchant on marketing opportunities.

Further information on preferred malting barley varieties is available on GrainCorp's website: graincorp.com.au
