- Queensland activity is tapering off as majority of barley harvest is complete and recent weather events have slowed wheat harvest.
- Northern NSW harvest of wheat, canola, barley and chickpeas continues, while barley, canola and wheat are now being delivered in the south of NSW.
- Harvesting activity across Victoria continues to increase, especially around the northern Mallee region and in the Swan Hill area.
- Heavy rainfall and high wind has been experienced across areas of eastern Australia, with mixed effect on crops. While the rains are welcome in some areas, it has delayed the progress of harvest in others.
